

Welcome to TRIUMPH

Dear Triumphants

It is my great pleasure to introduce to you the first issue of the e-newspaper of TRIUMPH! From now on, we are going to write down all events, lectures, workshops and trainings in this e-newspaper, for the memories to stay always noted as a part of the Triumphant happenings in our organization.

Dear friends, I would like to tell you that this newspaper will be published monthly, and it will contain explanations on the events from the past couple of weeks and updates on the events that will happen during that month. As this is our first issue, it is my honor to present all the events that has happened since the founding of TRIUMPH!

We'll start with the founding of TRIUMPH and the grand opening that happened in the beginning of April. We'll tell you about our first project, *The stories of Grandma and Grandpa*, in collaboration with two Grandmas and the kindergarten "Orce Nikolov" in Karposh. The projects in EU started out by sending out applications for trainings and projects, from the program Youth in Action and the program LifeLongLearning.

In May, we partnered with several NGOs in EU and we got our first sponsorship from RedBull. We started to hold trainings and lectures, first on Professional Orientation and then on applying for Gruntvig trainings.

This month, we started out by organizing eco-creative workshops. We organized a campaign for gathering recycling materials, as well as a workshop for EcoJewelry from e-waste. The next EcoJewelry workshop will be from fabrics.

I truly hope you will be entertained and enlightened by our projects and find a suitable event that you would like to be active in!

Respectfully, Angelevska Angela

Grand Opening of TRIUMPH

On 6th of April this year, the main initiators for founding this NGO, Angela and Sanja, on a quite humble way, but accompanied with many friends and supporters, ceremoniously opened the doors of the Career Center TRIUMPH Skopje.

For the first time ever, in the first issue of our e-newspaper, we are sharing the photos of the grand opening. Once more, we would like to express our

sincere gratitude to everyone who came to the opening event, and especially to Jovana and Zdravko Bogeski who unselfishly gave the space for the office and work for our organization.

*Be Active! Create a community without prejudice of age and social status!
Every innovation starts with one small idea.*

The stories from Grandma and Grandpa

The stories from Grandma and Grandpa- successfully executed project in the kindergarten Orce Nikolov in Karposh on 25.04.2013. Two wonderful, elderly women Dragica Najcevska and Liljana Andonova, shared their life stories of the development of their careers. From their dreams when they were as little as the children from the kindergarten, through their interesting and exciting journey to creating fruitful careers, each in their own department.

The event started out by short presentation of the project. Dragica and Lile tell their stories to the little children with vivid imagination. The inspired children hurried to the classrooms to draw and paint their future careers.

We left the happy women to the office of the principal of the kindergarten to share more stories of their life and careers.

We started out with this first project on purpose, since it breaks down the limits of age and link up the youngest and oldest, accomplishing the main theme of TRIUMPH- raising the social and educational status of the citizens.

Youth in Action Program

In April, Career Center TRIUMPH applied for a project in the Youth in Action Program, in the part 1.1 Youth Exchanges with partners from Latvia, Lithuania, and Turkey. We also signed partnerships with several NGOs in Europe for participating in Youth Exchanges and Trainings in their countries.

The Life Long Learning Program

The LLL Program has few parts, and TRIUMPH presented and applied for two of them in April: GRUNTVIG and COMENIUS.

Comenius is a program designed for the educational sector for children and youngsters, up to 24 years of age.

The Gruntvig program is designed for the educational sector for adults, age 24 and up.

The trainings offered from these two programs last for 5-10 days, and can be found on the following database:

<http://ec.europa.eu/education/trainingdatabase/>

All interested in participating in one of these trainings can choose their favorite and apply for them through TRIUMPH.

In April, through TRIUMPH, two teachers, for the subjects of History and English Language, from Gymnasium Nikola Karev applied for these trainings, as well as members from TRIUMPH.

In May
During the month of May, we organized two lectures in TRIUMPH: Professional Orientation and How to write applications for GRUNTVIG

Professional Orientation

On 27th May 2013, at TRIUMPH, an event in a form of a lecture was held at which young people 18-25 years of age participated.

In the focus of the upcoming enrolments for graduate schools and the need for direction, graduated psychologist Svetlana Pecanovska led the lecture on professional orientation.

The factors that steer young people in wrong directions were mentioned, as well as the pressure of our parents and peers and the need for self-awareness.

On the lecture the participants filled out psychological questionnaires for professional orientation and energizing beverages from our sponsor, RedBull.

The lecture lasted for hour and 30 minutes, and was held at the office of Career Center TRIUMPH.
